

ADVANCED BARIATRIC NUTRITION COURSE (ONLINE) 2022

ENDORSED BY

**University of
Sunderland**

With increasing incidence of obesity, bariatric and metabolic surgery has emerged as a valid treatment option for this disease. All across the world, there is an increasing trend in the numbers of bariatric operations year after year. These patients need long term support and have to be handheld and guided about nutrition and lifestyle modification. "Clinical nutritionists are the most important cog in the wheel and can make a significant difference in the well-being of post bariatric surgery patients". As the numbers of bariatric procedures increase, it is important for practicing nutritionists to understand the nuances of bariatric surgery and be well versed with the various aspects of bariatric science.

COURSE DESCRIPTION

The online advanced bariatric nutrition course is endorsed by the International Federation for Surgery of Obesity and Metabolic Surgery (IFSO), Obesity and Metabolic Surgery Society of India (OSSI), The Upper GI Surgeons (TUGS) & The University of Sunderland (UK). Powered with some of the most renowned national and international faculty, this course is designed for practicing clinical nutritionists, post graduate students of nutrition and dietetics, physicians and bariatric surgeons who are interested to learn about bariatric nutrition. It is a well-designed, extensive, online weekend course that extends over 7 weeks. The course will equip you to guide patients pre and post bariatric surgery and add another aspect to your practice of nutrition and dietetics.

WHAT YOU WILL LEARN

- A detailed understanding of pathophysiology of obesity
- Detailed understanding of bariatric/metabolic surgery and its effect on nutrient absorption
- Pre and post bariatric surgery nutritional management
- Diagnosis and management of nutritional deficiencies post bariatric surgery
- How to address common concerns pre and post bariatric surgery
- Patient communication and sensitivity training
- An update on latest guidelines on bariatric nutrition
- A peek into organizing support group meetings and creation of healthy bariatric recipes

COURSE STRUCTURE

- Online live lectures and interaction with faculty
- Weekly readings and assignments
- Live polls and quiz
- Communication training
- Resources and study material
- Online participation in support group meeting
- Opportunity to be a part of an international bariatric "recipe book"
